SAMPLE IMPACT: Weekly one-on-one Peer Recovery Coaching for four men.

Men entering our doors have made the courageous decision to **rise** from the depths of their addiction through sobriety, work, accountability, and community. To help them achieve things never thought possible, Step Denver provides individualized Peer Recovery Coaching on a weekly basis to aide residents’ progress through four program phases. These one-on-one sessions, as well as small group classes, are conducted by Step Alumni - Certified Peer and Family Specialists – who are uniquely qualified to offer practical and effective guidance. This level of partnership would provide vital, life-changing support for four men.

RECOVER

Over the course of six months they will receive finance and budgeting classes, family reconciliation group, life skills education, nutrition classes, and health needs. As a result, men re-enter the community restored and prepared.
